THE SORTD. *story*

A work meeting at a coffee shop sounds great – until you actually try it. Spotty Wi-Fi, tangled wires, and conversations so close, you might as well invite the next table to chime in.

SORTD. was created to change that.

Private meeting spaces with tech that just works, lighting that adapts to your mood, and custom-built tables designed to respect your laptop, your elbows, and your food.

It's the kind of place where the coffee's thoughtful, the food hits the spot, and the vibe keeps you around.

Whether you're here to meet a client, brainstorm with your team, or just hang out with friends – this is your space.

SORTD. is where your meetings get tastier.
